

## **INTERNSHIP IN WEB DEVELOPMENT**

**Breeze Technologies** develops a cloud analytics platform for environmental data and offers low-cost air quality sensors for large-scale indoor and outdoor deployments – 1.000 X cheaper than industry standard solutions. The startup's smart algorithms suggest the most efficient and effective air quality improvement measures, connect customers to intervention partners if necessary and track the success of implemented and ongoing interventions for the two targeted customer segments smart buildings and smart cities.

We are looking for an intern for our software development team for a minimum three-month position based in Hamburg to start immediately. Breeze offers you the possibility to experience the agile and fast-paced working environment of a startup company. You will have your own projects and responsibilities from day one and work closely with the rest of our team.

### **YOUR TASKS:**

- Front-end and web development following agile methods;
- Development and improvement of our web-based applications;
- Conceptualizing new web applications for our customers.

### **WHAT WE EXPECT:**

- Passion for software engineering;
- Understanding of software architecture;
- Bachelor's degree in software engineering or similar qualification;
- Project or job experience in front-end software development;
- Experience with build tools for JavaScript;
- Experience with source control management;
- Proficiency in development with JavaScript, HTML and CSS;
- Ideally proficiency in using AngularJS and TypeScript;
- High self-sufficiency, proactive working methods;
- Working proficiency in English (German would be a plus).

### **WHAT WE OFFER:**

- Work on a great product in one of the most innovative startups in Hamburg;
- A great and dynamic team;
- A flexible work schedule;
- Your own responsibilities and projects from day one;
- Future career opportunities in our growing team.

At Breeze we are always striving for a cleaner environment and a better tomorrow. That is what motivates us every day. Think Breeze is right for you? Then:

We are looking forward to your application.

Apply now by email at [career@breeze-technologies.de](mailto:career@breeze-technologies.de). Please attach your CV, a cover letter explaining why you want to work for us and how you plan on moving Breeze forward, work samples (code, link to your github profile) and state your earliest possible start date.

*N.B. The applications must be in English only*
